**Filed pursuant to Rule 424(b)(3)**
**Registration No. 333-291821**

**Prospectus Supplement No. 3**
**(To Prospectus dated March 13, 2026)**

This prospectus supplement updates, amends and supplements the prospectus, dated March 13, 2026 (the "Prospectus"), which forms part of our Registration Statement on Form S-1 (Registration No. 333-291821) relating to up to 9,103,796 shares of our common stock, par value $0.0001 per share ("Common Stock"), which may be offered for sale by the selling stockholders identified under the heading "Selling Stockholders" in the Prospectus. This prospectus supplement is being filed to update, amend and supplement the information contained in the Prospectus with information contained in our Quarterly Report on Form 10-Q, which was filed with the Securities and Exchange Commission (the "SEC") on May 12, 2026 (the "Quarterly Report") and our Current Report on Form 8-K, which was filed with the SEC on May 13, 2026 (the "Current Report"). Accordingly, we have attached the Quarterly Report and the Current Report to this prospectus supplement.

This prospectus supplement is not complete without the Prospectus. This prospectus supplement should be read in conjunction with the Prospectus, which is to be delivered with this prospectus supplement, and is qualified by reference thereto, except to the extent that the information in this prospectus supplement updates or supersedes the information contained in the Prospectus. Please keep this prospectus supplement with your Prospectus for future reference.

**Investing in our securities involves a high degree of risk. See the section titled "Risk Factors" in the Prospectus and in the documents incorporated by reference in the Prospectus.**

**Neither the SEC nor any state securities commission has approved or disapproved of the securities to be offered pursuant to the Prospectus or this prospectus supplement or determined if the Prospectus or this prospectus supplement is truthful or complete. Any representation to the contrary is a criminal offense.**

**The date of this prospectus supplement is May 15, 2026.**

**TABLE OF CONTENTS**

## CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

All statements in this Form 10-Q, other than statements of historical facts, including statements regarding our future results of operations and financial position, business strategy, product development, and plans and objectives of management for future operations, are forward-looking statements. These forward-looking statements generally are identified by the words "believe," "project," "expect," "anticipate," "estimate," "intend," "budget," "target," "aim," "strategy," "plan," "guidance," "outlook," "may," "should," "could," "will," "would," "will be," "will continue," "will likely result" and similar expressions, although not all forward-looking statements contain these identifying words. Forward-looking statements, which are subject to risks, include, but are not limited to, statements about:

- our current and future research and development ("R&D") activities, including clinical testing and manufacturing and related costs and timing;
- our product development and business strategy, including the potential size of the markets for our products and future development and/or expansion of our products in our markets;
- our ability to commercialize products and generate product revenues;
- any statements concerning anticipated regulatory activities, including our ability to obtain regulatory clearances;
- our R&D expenses;
- sufficiency of our capital resources;
- our ability to raise additional funding when needed; and
- risks facing our operations and intellectual property.

We have based the forward-looking statements contained in this Form 10-Q largely on our current expectations, estimates, forecasts and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy and financial needs. In light of the significant uncertainties in these forward-looking statements, you should not rely upon forward-looking statements as predictions of future events. Although we believe that we have a reasonable basis for each forward-looking statement contained in this Form 10-Q, we cannot guarantee that the future results, levels of activity, performance or events and circumstances reflected in the forward-looking statements will be achieved or occur at all. You should refer to the section titled "Risk Factors" in our annual report on Form 10-K for the year ended December 31, 2025 filed with the U.S. Securities and Exchange Commission (the "SEC") on February 26, 2026 (the "Annual Report"), as such risks and uncertainties may be amended, supplemented or superseded from time to time by our subsequent reports on Forms 10-Q and 8-K we file with the SEC, for a discussion of important factors that may cause our actual results to differ materially from those expressed or implied by our forward-looking statements. Furthermore, if our forward-looking statements prove to be inaccurate, the inaccuracy may be material.

The forward-looking statements made in this Form 10-Q relate only to events as of the date on which the statements are made. Except as required by law, we undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. The Private Securities Litigation Reform Act of 1995 and Section 27A of the Securities Act of 1933, as amended do not protect any forward-looking statements that we make within this Form 10-Q.

You should read this Form 10-Q and the documents that we reference in this Form 10-Q completely and with the understanding that our actual future results may be materially different from what we expect. We qualify all of the forward-looking statements in this Form 10-Q by these cautionary statements.

This Form 10-Q contains certain data and information that we obtained from various publications. Statistical data in these publications also include projections based on a number of assumptions.

All references in this Form 10-Q to our common stock, par value $0.0001 per share ("Common Stock") shall include the shares represented by CHESS Depository Interests ("CDIs"), each of which represents one underlying share of Common Stock, unless the context suggests otherwise. In addition, the nature of the medical technology industry results in significant uncertainties for any projections or estimates relating to the growth prospects or future condition of our industry. Furthermore, if any one or more of the assumptions underlying the market data are later found to be incorrect, actual results may differ from the projections based on these assumptions. You should not place undue reliance on these forward-looking statements.

**ANTERIS TECHNOLOGIES GLOBAL CORP.**

**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**FOR THE THREE MONTHS ENDED MARCH 31, 2026**

## 1. DESCRIPTION OF BUSINESS

The principal activities of Anteris Technologies Global Corp. ("ATGC," "Anteris," "Company," "we," "us," or "our") include:

- Continued research and development ("R&D") of the DurAVR® Transcatheter Heart Valve ("THV"), consisting of a single-piece biomimetic valve made with our primary ADAPT® tissue-enhancing technology and deployed with our ComASUR® balloon-expandable delivery system (the "ComASUR® Delivery System"), designed to address unmet medical needs in the treatment of aortic stenosis. The DurAVR® THV, with its single piece, native-shaped biomimetic design is built to mimic the performance of a healthy aortic valve and to restore normal laminar blood flow. This new class of technology can be used to treat new aortic stenosis patients and to treat aortic stenosis patients where their current bioprosthetic aortic valve is failing ("valve-in-valve").

- Advancing the DurAVR® THV clinical program, including ongoing patient recruitment and data collection for the randomized global pivotal study (the "PARADIGM Trial"), expansion into additional geographies, and continued site activation and training. Data from the PARADIGM Trial is intended to support a Premarket Approval ("PMA") application in the United States and a parallel CE Mark approval in Europe. These are key milestones on the path to commercialization.

## 2. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States ("U.S. GAAP"). These policies have been consistently applied to all the periods presented, unless otherwise stated. The accompanying condensed consolidated financial statements of the Company are unaudited. In the opinion of management, all adjustments necessary for a fair statement of results of operations, cash flows, and financial position have been made. The results of operations for the three months ended March 31, 2026 and 2025 are not necessarily indicative of results that may be expected for the full year or any other subsequent interim period.

Unless noted otherwise, all dollar amounts are in thousands of United States dollars ("U.S. dollars" or "$"). Some amounts may not reconcile due to rounding.

The Company is an emerging growth company ("EGC"), as defined in Section 2(a) of the Securities Act of 1933, as amended (the "Securities Act"), as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), which permits the Company to utilize an extended transition period to comply with new or revised accounting standards applicable to public companies.

The preparation of financial statements in conformity with U.S. GAAP requires management to make judgments, estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Management bases its judgments, estimates and assumptions on historical experience and on other various factors, including expectations of future events that management believe to be reasonable under the circumstances. Actual results could differ from those estimates due to risks and uncertainties.

The accounting policies adopted in the preparation of the condensed consolidated financial statements are consistent with those adopted and disclosed in the Group's (defined below) financial statements for the year ended December 31, 2025, and therefore these condensed consolidated financial statements do not include all information and footnote disclosures normally included in the annual consolidated financial statements. The financial information included herein should be read in conjunction with the consolidated financial statements and related notes for the year ended December 31, 2025 as included in the Company's Annual Report on Form 10-K for the year ended December 31, 2025 filed with the U.S. Securities and Exchange Commission (the "SEC") on February 26, 2026 (the "Annual Report").

There have been no material changes to the Company's significant accounting policies from those described in the consolidated financial statements for the year ended December 31, 2025, except for the adoption of certain accounting standards impacting disclosures only, as discussed below.

### (a) Principles of consolidation

The condensed consolidated financial statements include the accounts of ATGC, its wholly-owned subsidiaries, entities for which the Company has a controlling financial interest, as well as any variable interest entities ("VIEs") for which ATGC has been determined to be the primary beneficiary. ATGC and its subsidiaries together are referred to in these financial statements as the "Group."

Subsidiaries are all those entities over which the Group has control. Control is the power to govern the financial and operating policies of an entity. All subsidiaries of ATGC have a reporting year end of December 31. Intercompany transactions, balances and unrealized gains or losses on transactions between entities in the Group are eliminated.

### (b) Recently Adopted Accounting Standards

In December 2023, the Financial Accounting Standard Board ("FASB") issued Accounting Standards Update ("ASU") 2023-09, *Income Taxes (Topic 740) Improvements to Income Tax Disclosures*. ASU 2023-09 intends to enhance income tax disclosures to address investor requests for more information about the tax risks and opportunities present in an entity's worldwide operations and primarily requires further disaggregation of existing disclosures related to the effective tax rate reconciliation and income taxes paid. As an EGC, the Company elected to apply the extended transition period, and will adopt ASU 2023-09 for the year ending December 31, 2026. The ASU impacts disclosure only and did not have an impact on the Company's condensed consolidated financial statements. The Company will apply the disclosure requirements prospectively beginning with the year ending December 31, 2026; however, for comparability, the Company expects to present comparative income tax disclosures for the year ended December 31, 2025 in its annual financial statements for the year ending December 31, 2026, as applicable.

**ANTERIS TECHNOLOGIES GLOBAL CORP.**

**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**FOR THE THREE MONTHS ENDED MARCH 31, 2026**

## 2. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### (c) New Accounting Standards Not Yet Adopted

The FASB has not issued any accounting standards updates during the first three months of 2026.

For information on accounting pronouncements issued in prior years but not yet adopted, refer to Note 2(y) in the consolidated financial statements for the year ended December 31, 2025 as included in the Annual Report.

## 3. INCOME TAX

The Company's provision for interim periods is determined using an estimate of the annual effective tax rate, adjusted for discrete items arising in that period. The Company's effective tax rate differs from the U.S. statutory tax rate primarily due to valuation allowances on its deferred tax assets as it is more likely than not that some, or all, of the Company's deferred tax assets will not be realized. Income tax expense for the three months ended March 31, 2026 includes a discrete tax expense related to a Swiss withholding tax settlement arising from a prior-period tax audit. There was no income tax benefit for the three months ended March 31, 2025.

Deferred tax assets and liabilities are determined based upon the differences between the unaudited condensed consolidated financial statements carrying amounts and the tax bases of existing assets and liabilities and for loss and credit carryforwards, using enacted tax rates expected to be in effect in the years in which the differences are expected to reverse. The Company has provided a full valuation allowance against the net deferred tax assets as the Company has determined that it was more likely than not that the Company would not realize the benefits of net deferred tax assets.

## 4. CASH, CASH EQUIVALENTS AND RESTRICTED CASH

| (in thousands) | March 31, 2026 $ | December 31, 2025 $ |
|---|---|---|
| Cash at bank | 31,682 | 5,385 |
| Cash equivalents (1) | 251,017 | 6,697 |
| Restricted cash | 511 | 494 |
| | 283,210 | 12,576 |

(1) Consisted primarily of money market deposits, treasury bills and term deposits. The Company considers all short-term, highly liquid investments, that are readily convertible to known amounts of cash and with original maturities of three months or less to be cash equivalents.

## 5. ACCRUED AND OTHER LIABILITIES

| (in thousands) | March 31, 2026 $ | December 31, 2025 $ |
|---|---|---|
| **Current** | | |
| Accrued liabilities | 4,885 | 3,425 |
| Employee compensation and withholdings | 2798 | 5,487 |
| Lease asset retirement obligation | 526 | 506 |
| Cash-settled stock-based payment provision | 384 | 279 |
| | 8,593 | 9,697 |

## 6. EQUITY

### Share Capital

For information on the pertinent rights and privileges of the Company's outstanding shares, refer to Note 13 *Equity* in the audited consolidated financial statements for the year ended December 31, 2025 as included in the Annual Report.

The following details the issuance of Common Stock during the three months ended March 31, 2026:

- On January 22, 2026, the Company completed an underwritten public offering (the "2026 Public Offering") of 40,000,000 shares of its Common Stock, which included the full exercise of the underwriters' option to purchase additional shares, at a public offering price of $5.75 per share. The 2026 Public Offering generated gross proceeds of approximately $230.0 million, prior to deducting underwriting discounts and commissions and offering expenses. The 2026 Public Offering was made pursuant to the Company's shelf registration statement on Form S-3 (Registration No. 333-292565), which was previously filed with the SEC and declared effective on January 8, 2026, and a prospectus supplement dated January 20, 2026.

- On January 20, 2026, the Company entered into a stock purchase agreement with Covidien Group S.à r.l. ("Medtronic"), a wholly owned subsidiary of Medtronic plc, pursuant to which the Company issued and sold to Medtronic 15,652,173 shares of Common Stock at a purchase price of $5.75 per share (the "Medtronic Private Placement"). The Medtronic Private Placement closed on January 22, 2026, immediately after the completion of the 2026 Public Offering, and generated gross proceeds of approximately $90.0 million, before deducting placement agent fees and estimated offering expenses. The issuance and sale of the shares of Common Stock to Medtronic in the Medtronic Private Placement was not registered under the Securities Act and were issued and sold in reliance on the exemption provided by Section 4(a)(2) of the Securities Act.

**ANTERIS TECHNOLOGIES GLOBAL CORP.**

**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**FOR THE THREE MONTHS ENDED MARCH 31, 2026**

## 6. EQUITY (continued)

For the comparable three-month period ended March 31, 2025, the Company issued:

- In January 2025, following the Company's IPO, the underwriters partially exercised the over-allotment option, resulting in the issuance of 78,481 shares of Common Stock at $6.00 per share, for gross proceeds of $0.5 million.
- In March 2025, certain directors exercised 289,500 stock options, resulting in the issuance of 32,959 shares of Common Stock, including both net-settled and cash-settled exercises, with cash proceeds of $0.1 million.
- In Marh 2025, investors exercised 10,000 stock options for $6.22 per share, for gross proceeds of $0.1 million.
- During the three months ended March 31, 2025, 831 unlisted stock options were exercised by employees (excluding directors and named executive officers). These options had a weighted average exercise price of $3.99 per share.

## 7. LOSS PER SHARE

The below table presents the computation of basic and diluted loss per share:

| | | Three months ended March 31, | |
|---|---|---|---|
| | | 2026 | 2025 |
| Loss for the period, attributable to the owners of the Company | $'000 | (23,024) | (21,864) |
| Weighted average number of shares outstanding: used in the denominator in calculating basic and diluted loss per share | Number | 83,009,832 | 36,012,290 |
| Basic and diluted loss per share | $ | (0.28) | (0.61) |
| Securities excluded as their inclusion would be anti-dilutive | Number | 9,989,171 | 4,525,643 |

## 8. STOCK-BASED COMPENSATION

### (a) Stock-based compensation expense

The following table presents the components and classification of stock-based compensation expense recognized for stock options, cash-settled stock-based payments rights ("SPPs"), restricted stock units ("RSUs") and shares of Common Stock issued to employees, directors and consultants:

| | Three months ended March 31, | |
|---|---|---|
| (in thousands) | 2026 $ | 2025 $ |
| Equity-settled stock-based payments (including stock options and RSUs) | 1,816 | 1,703 |
| Cash-settled stock-based payments (SPP rights) | 105 | (142) |
| Total stock-based compensation expense | 1,921 | 1,561 |
| *Classification of stock-based compensation expense* | | |
| Cost of products sold | 1 | 1 |
| Research and development expense | 618 | 615 |
| Selling, general and administrative expense | 1,302 | 945 |
| Total stock-based compensation expense | 1,921 | 1,561 |

As of March 31, 2026, there was $6.8 million of total unrecognized compensation cost related to non-vested stock-based compensation arrangements granted. That cost is expected to be recognized over a weighted-average period of 1.2 years.

### (b) Stock-based awards activity

*Director stock options*

During the three months ended March 31, 2025, 289,500 stock options held by directors were exercised, resulting in the issuance of 32,959 shares of Common Stock. There was no director stock option activity during the three months ended March 31, 2026.

*Employee stock options*

During the three months ended March 31, 2026 and 2025, no employee stock options were granted. During the same periods, 13,417 and 17,665 employee stock options, respectively, were cancelled due to expiration or forfeiture. There was no other movement in employee stock options during either period.

**ANTERIS TECHNOLOGIES GLOBAL CORP.**

**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**FOR THE THREE MONTHS ENDED MARCH 31, 2026**

**8. STOCK-BASED COMPENSATION (continued)**

*Employee RSUs*

During the three months ended March 31, 2026, the Company granted 78,740 RSUs to employees under the Anteris Technologies Global Corp. Equity Incentive Plan (the "Equity Incentive Plan"). These RSUs generally vest in three tranches, with each tranche vesting on the first, second and third anniversaries of the grant date, subject to continued employment, and are settled in shares of Common Stock upon vesting. During the period, 18,550 RSUs were forfeited upon cessation of employment.

No RSUs were granted or forfeited during the three months ended March 31, 2025.

*SPP rights*

No SPP rights were issued during the three months ended March 31, 2026 or 2025. The carrying amount of the SPP liabilities was $0.4 million and $0.3 million as of March 31, 2026 and December 31, 2025, respectively.

**(c) Fair Value Disclosures**

*RSUs*

The weighted-average grant date fair value of RSUs granted during the three months ended March 31, 2026 was $6.35 per RSU. The fair value of the RSUs was determined based on the market value of the Common Stock on the grant date, which represents the fair value of the underlying shares.

*SPP rights*

The inputs used in the measurement of the fair values at reporting date of the SPP rights were as follows:

| Service based SPP | March 31, 2026 | December 31, 2025 |
|---|---|---|
| Weighted average fair value per right | $ 0.06 | $ 0.10 |
| Share price at measurement date | $ 5.55 | $ 4.99 |
| Base price | $ 15.28 | $ 15.28 |
| Expected volatility (weighted average) | 80.0% | 77.5% |
| Expected life (weighted average) | 0.5 years | 0.7 years |
| Risk-free interest rate (based on government bonds) | 3.72% | 3.54% |

| Service and performance based SPP | March 31, 2026 | December 31, 2025 |
|---|---|---|
| Weighted average fair value per right | $ 0.63 | $ 0.49 |
| Share price at measurement date | $ 5.55 | $ 4.99 |
| Base price | $ 15.28 | $ 15.28 |
| Expected volatility (weighted average) | 77.8% | 72.3% |
| Expected life (weighted average) | 1.5 years | 1.7 years |
| Risk-free interest rate (based on government bonds) | 3.74% | 3.47% |

**9. VARIABLE INTEREST ENTITY**

The Company has agreed to provide certain development services to v2vmedtech, inc. ("v2vmedtech") in exchange for equity in v2vmedtech. The Company provides engineering, clinical, regulatory, marketing, and executive management resources, but excluding medical and chief medical officer services, in connection with v2vmedtech's development of an innovative heart valve repair device utilizing a transcatheter edge-to-edge repair method for a minimally invasive treatment of mitral and tricuspid valve regurgitation, also known as leaky valve.

he Company has determined that v2vmedtech is a VIE under ASC 810 and that the Company is the primary beneficiary because it has the power to direct the activities that most significantly affect v2vmedtech's economic performance, primarily through appointing and holding a majority of the v2vmedtech's board of directors, and has the right to receive certain benefits or the obligation to absorb losses that could potentially be significant to v2vmedtech through equity ownership. Therefore, the Company consolidates v2vmedtech and reassesses its primary-beneficiary status at each reporting date.

Subsequent to March 31, 2026, the Company terminated the Contribution and Stock Purchase Agreement with v2vmedtech, as described in Note 12 *Subsequent Events*, after which the Company no longer has ongoing development funding obligations.

**ANTERIS TECHNOLOGIES GLOBAL CORP.**

**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**FOR THE THREE MONTHS ENDED MARCH 31, 2026**

## 9. VARIABLE INTEREST ENTITY (continued)

The following table presents the assets and liabilities for the VIE:

| | As of | |
|---|---|---|
| (in thousands) | March 31, 2026 $ | December 31, 2025 $ |
| **Assets** | | |
| Other current assets | 33 | 17 |
| **Total assets** | 33 | 17 |
| **Liabilities** | | |
| Current liabilities | 46 | 211 |
| Non-current liabilities | 35 | 35 |
| **Total liabilities** | 81 | 246 |
| **Net (liabilities)/assets** | (48) | (229) |

Included in current liabilities is a loan from Anteris Technologies Corporation, an intermediate parent entity of v2vmedtech, amounting to $25,625 as of March 31, 2026 and $14,969 as of December 31, 2025. This loan has been provided to support v2vmedtech's working capital needs. It is unsecured and repayable on demand. This balance is eliminated in the condensed consolidated financial statements. Other than the initial capital contributions of other stockholders of v2vmedtech, v2vmedtech is wholly financed by the Group. In exchange for v2vmedtech equity interests, the Group contributed $0.2 million and $0.4 million to v2vmedtech to finance its operations during the three months ended March 31, 2026 and March 31, 2025, respectively.

## 10. COMMITMENTS AND CONTINGENCIES

*Commitments*

As of each of March 31, 2026 and December 31, 2025, the Group had capital commitments of $0.1 million for the purchase of plant and equipment.

*Contingencies*

The Group records a liability in the consolidated financial statements on an undiscounted basis for loss contingencies related to legal actions when a loss is considered probable, and the amount may be reasonably estimated. If the reasonable estimate of a probable loss is a range, and no amount within the range is a better estimate than any other, the minimum amount of the range is accrued. If a loss is reasonably possible but not probable, and may be reasonably estimated, the estimated loss or range of loss is disclosed. When determining the estimated loss or range of loss, significant judgment is required. Estimates of probable losses resulting from litigation and governmental proceedings involving the Company are inherently difficult to predict, particularly when the matters are in early procedural stages with incomplete scientific facts or legal discovery, involve unsubstantiated or indeterminate claims for damages, potentially involve penalties, fines or punitive damages, or could result in a change in business practice.

## 11. SEGMENT REPORTING

### (a) Description of segments

Segment information is presented using a management approach, meaning that segment information is provided on the same basis as information is used for internal reporting purposes by the chief operating decision maker ("CODM") which is the Company's Vice Chairman and Chief Executive Officer, who makes key strategic decisions. The CODM is responsible for the allocation of resources and assessing the performance of the Group. Management has determined that the activities of the business as reviewed by the CODM are one segment, being the development and commercialization of the ADAPT® anti-calcification tissue. This is focused on the DurAVR® THV System.

### (b) Segment information

The revenue and cost information relating to all of the ADAPT® products including both the DurAVR® THV System and regenerative tissue products are regularly reviewed by the CODM on an aggregate basis.

The CODM assesses performance and allocates resources based on the Company's Condensed Consolidated Statements of Operations and key components and processes of the Company's operations are managed centrally. Segment asset information is not used by the CODM to allocate resources. As a single reportable segment entity, the Company's segment performance measure is net income or loss.

**ANTERIS TECHNOLOGIES GLOBAL CORP.**

**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**FOR THE THREE MONTHS ENDED MARCH 31, 2026**

## 11. SEGMENT REPORTING (continued)

| | Three months ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| (in thousands) | $ | $ |
| Net sales from external customers | 494 | 556 |
| Depreciation & amortization | (429) | (403) |
| Interest income | 1,722 | 91 |
| Interest expense | (27) | (26) |
| Other segment items | (24,658) | (22,149) |
| Segment net loss | (22,898) | (21,931) |

No detailed asset information by reportable segment has been reported given that the single segment's information is already presented in the Condensed Consolidated Balance Sheets. Refer to the Condensed Consolidated Statements of Cash Flows for significant non-cash items and total expenditure for additions of long-lived assets.

### (c) Geographic information

Segment revenues (net sales) have been based on the geographic location of the customers taking possession of the products.

| | Three months ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| (in thousands) | $ | $ |
| United States | 484 | 277 |
| Australia | 10 | 8 |
| Germany | - | 271 |
| | 494 | 556 |

### (d) Major customers

The following table summarizes revenues from major customers that individually accounted for 10% or more of the Company's total revenues.

| | Three months ended March 31, | |
|---|---|---|
| | 2026 | 2025 |
| (in thousands) | $ | $ |
| Customer A | 484 | 277 |
| Customer B | - | 271 |

The total amounts outstanding from these customers was $227 thousand and $28 thousand as of March 31, 2026 and December 31, 2025, respectively.

## 12. SUBSEQUENT EVENTS

Management has evaluated the impact of subsequent events through May 12, 2026.

**Brooklyn Park Lease**

On April 23, 2026, the Company, through a wholly owned subsidiary, entered into a lease agreement for office and warehouse space located in Brooklyn Park, Minnesota. The lease term commences on September 1, 2026. In connection with the lease, the Company entered into an irrevocable standby letter of credit in the amount of $3.5 million, in favor of the landlord to secure certain obligations under the lease. The standby letter of credit expires on April 21, 2027, subject to automatic annual renewal unless notice of non-extension is provided by the issuing bank.

The lease represents a non recognized subsequent event, and no lease assets or liabilities have been recorded in the condensed consolidated financial statements as the lease commencement date occurs after March 31, 2026. The Company will evaluate and recognize the lease in accordance with ASC 842 upon commencement of the lease term.

**Termination of v2v Agreement**

On April 28, 2026, the Company, through a wholly owned subsidiary, notified v2vmedtech that it had elected to discontinue further development contributions under the Contribution and Stock Purchase Agreement dated April 18, 2023. As a result of this election, the Company is required to pay a contractual break fee of $0.4 million and has no further obligation to fund development activities. Following payment of the break fee, the related development agreement will terminate.

Under the terms of the agreement, the initial shareholders of v2vmedtech may elect to either acquire the Company's equity interest or reduce it to a capped minority interest. The Company does not expect this matter to have a material adverse effect on its consolidated financial position or liquidity.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

*The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") should be read in conjunction with our condensed consolidated financial statements and related notes appearing elsewhere in this Quarterly Report on Form 10-Q and our annual report on Form 10-K for the year ended December 31, 2025, filed with the U.S. Securities and Exchange Commission (the "SEC") on February 26, 2026 (the "Annual Report"). Except for historical information, the matters discussed in this MD&A contain various forward-looking statements that involve risks and uncertainties and are based upon judgments concerning various factors beyond our control. Our actual results could differ materially from those anticipated in these forward-looking statements. Please also see the section of this Form 10-Q titled "Cautionary Note Regarding Forward-Looking Statements."*

### Overview

Anteris is a structural heart company dedicated to revolutionizing cardiac care by pioneering science-driven and measurable advancements to restore heart valve patients to healthy function. Our lead product, the DurAVR® Transcatheter Heart Valve ("THV") System, was designed in collaboration with the world's leading interventional cardiologists and cardiac surgeons to treat aortic stenosis — a potentially life-threatening condition resulting from a narrowing of the aortic valve. The balloon-expandable DurAVR® THV is the first biomimetic valve, which is shaped to mimic the performance of a healthy human aortic valve and aims to replicate normal aortic blood flow. Our DurAVR® THV System consists of a single-piece, biomimetic valve made with our proprietary ADAPT® tissue-enhancing technology and deployed with our ComASUR® balloon-expandable delivery system (the "ComASUR® Delivery System"). ADAPT® is our proprietary anti-calcification tissue shaping technology that is designed to reengineer xenograft tissue into a pure, single-piece collagen bioscaffold. Our patented ADAPT® tissue has been clinically demonstrated to be calcium free for up to 10 years post-procedure, according to *Performance of the ADAPT-Treated CardioCel® Scaffold in Pediatric Patients With Congenital Cardiac Anomalies: Medium to Long-Term Outcomes*, published by William Neethling et al., and has been distributed for use in over 55,000 patients globally in other indications. Our ComASUR® Delivery System, which was developed in consultation with physicians, is designed to provide precise alignment with the heart's native commissures to achieve accurate placement of the DurAVR® THV.

We intend to establish the safety and effectiveness of the DurAVR® THV in patients with severe aortic stenosis in our global pivotal study (the "PARADIGM Trial").

The PARADIGM Trial is a prospective, randomized, controlled multicenter, international study wherein subjects will be randomized to receive either a transcatheter aortic valve replacement ("TAVR") using the DurAVR® THV or TAVR using a commercially available and approved THV in an "All Comers Randomized Cohort." The primary end point of the PARADIGM Trial is a composite of all-cause mortality, all stroke and cardiovascular hospitalization at one year post-procedure. The endpoint will be evaluated as a non-inferiority analysis. Subjects with a failed surgical bioprosthesis in need of a valve-in-valve TAVR will be enrolled in a separate parallel registry.

Recruitment to the PARADIGM Trial commenced in Europe in October 2025, followed by receipt of FDA Investigational Device Exemption ("IDE") approval for the trial in November 2025. In April 2026, we secured U.S. Medicare reimbursement eligibility for the global pivotal PARADIGM Trial under a Centers for Medicare & Medicaid Services ("CMS") national coverage policy. Eligible procedures performed at participating U.S. study sites are covered under the Transcatheter Aortic Valve Replacement (TAVR) National Coverage Determination 20.32. This milestone supported the activation of our initial U.S. sites as part of the PARADIGM Trial with first patients enrolled and treated during May 2026.

Recruitment remains ongoing, with planned expansion into additional countries to further accelerate patient enrollment. The PARADIGM Trial is supported by early clinical experience from over 130 patients treated with the DurAVR® THV.

It is anticipated that the design of the PARADIGM Trial will provide the primary clinical evidence on which the FDA could base a decision for Premarket Approval ("PMA"), which is required for commercialization of the DurAVR® THV System in the United States. We anticipate CE Mark approval will progress in parallel to the PMA.

### Financial Overview

As a development-stage company, we have incurred losses since our inception. We anticipate that we will continue to incur losses for the foreseeable future and there can be no assurance that we will ever achieve or maintain profitability.

We expect expenses for our research, clinical validation, development, design, manufacturing and marketing will increase and, as a result, we will need additional capital to fund our operations. Any future funding could involve a combination of equity offerings, debt financings, other third-party funding, marketing and distribution arrangements, strategic alliances and licensing arrangements. We may be unable to raise additional funds or enter into such other arrangements when needed on favorable terms or at all.

In January 2026, we completed an underwritten public offering, pursuant to which we issued and sold 40,000,000 shares of our Common Stock, including the full exercise of the underwriters' option to purchase additional shares, at a public offering price of $5.75 per share (the "2026 Public Offering") and a stock purchase agreement with Covidien Group S.à r.l. ("Medtronic"), a wholly owned subsidiary of Medtronic plc, pursuant to which we issued and sold to Medtronic 15,652,173 shares of Common Stock at a purchase price of $5.75 per share (the "Medtronic Private Placement"), which collectively generated gross proceeds of approximately $320.0 million, before deducting underwriting discounts and commissions, placement agent fees, and offering expenses.

Any failure to raise capital or enter into such other arrangements as and when needed could have a negative impact on our financial condition and our ability to market our products.

***Principles of Consolidation and Operating Segments***

The condensed consolidated financial statements include the accounts for our company, our wholly-owned subsidiaries, and entities for which we have a controlling financial interest. Intercompany transactions, balances and unrealized gains and losses on transactions between such entities are eliminated.

Our management has determined that the activities of the business as reviewed by our Vice Chairman and Chief Executive Officer, who also serves as our chief operating decision maker, are one segment, being the development and commercialization of the ADAPT® anti-calcification tissue. This is focused on the DurAVR® THV System.

***Components of Results of Operations***

*Revenue and Other Income*

We currently derive revenue from the sale of regenerative tissue products. Such sales have historically been made principally to 4C Medical Technologies, Inc. ("4C") and, in prior periods, to LeMaitre Vascular, Inc. ("LeMaitre"), a distributor of medical products. In 2019, we sold the distribution rights for CardioCel™ and VascuCel™ to LeMaitre in order to focus on development of our proprietary ADAPT® tissue for the DurAVR® THV System and, in connection therewith, we entered into a Transition Services Agreement pursuant to which we manufactured and sold CardioCel™ and VascuCel™ products to LeMaitre. The Transition Services Agreement with LeMaitre expired in January 2025, and we do not expect to receive any future revenue from LeMaitre.

The Supply and License Agreement with 4C (the "4C Agreement"), had an initial seven-year term that ended on June 1, 2025, and under its terms would automatically renew for successive one-year periods unless either party provided written notice of non-renewal at least 180 days prior to the applicable renewal date. On November 26, 2025, we notified 4C that we would not renew the 4C Agreement for the next renewal term. The agreement will expire on June 1, 2026, and no early termination penalties are anticipated in connection with its non-renewal. The expiration of the 4C Agreement is not expected to have a material impact on our financial results.

*Expenses*

Our most significant expenses are research and development ("R&D") and selling, general and administrative expenses.

Cost of products sold in 2026 reflects the manufacturing cost from the sale of regenerative tissue products to 4C. In 2025, cost of products sold also included manufacturing costs related to sales to LeMaitre. These expenditures include raw materials and consumables, plus other costs attributable to the manufacturing of these products.

*R&D Expense*

R&D has been a significant focus with investments in the DurAVR® THV System, including the DurAVR® THV, the ComASUR® Delivery System, a disposable crimper, and an expandable access sheath. These components are collectively managed as part of the overall DurAVR® THV System rather than as separate projects. Since late 2021, when our DurAVR® THV was first used in human trials in Tbilisi, Georgia, R&D efforts have focused on incorporating clinical insights to refine and advance the technology, supporting the pathway toward commercialization. These costs have included, among others, preclinical and clinical studies, design iterations, lab services, clinical data monitoring, project and site management, travel, data management and safety of the study.

During the three months ended March 31, 2026, the Anteris team continued to expand global manufacturing capacity to scale for the PARADIGM Trial. All production (DurAVR® THV, ComASUR® Delivery System, crimper, E-sheath) is being scaled into new ISO Qualified Clean Room facilities, increasing manufacturing capacity relative to 2025 capacity levels. The transition to the new facilities aims for a reliable and scaled inventory supply to support the PARADIGM Trial. In addition, the gold-standard ADAPT® tissue for the DurAVR® THV is planned to be sourced from both the United States and Australia moving forward to help mitigate supply chain risks. This progress reflects the strategic deployment of capital into areas that support operational readiness and long-term growth capacity for clinical and commercial success.

**Results of Operations**

The following tables set forth our results of operations (in thousands, except percentages).

| | Three Months Ended March 31, | | |
|---|---|---|---|
| | **2026** | **2025** | **% Change** |
| **Net sales** | $ 494 | $ 556 | (11)% |
| **Costs and expenses:** | | | |
| Cost of products sold | (114) | (207) | (45)% |
| Research and development expense | (17,457) | (16,456) | 6% |
| Selling, general and administrative expense | (6,930) | (5,673) | 22% |
| **Operating loss** | (24,007) | (21,780) | 10% |
| Other non-operating income, net | 1,722 | 91 | 1,792% |
| Interest and amortization of debt discount and expense | (27) | (26) | 4% |
| Net foreign exchange (losses)/gains | (94) | (219) | (57)% |
| Fair value movement of derivatives | - | 3 | (100)% |
| **Loss before income taxes from continuing operations** | (22,406) | (21,931) | 2% |
| Income tax (expense)/benefit | (492) | - | - |
| **Loss after income tax** | (22,898) | (21,931) | 4% |
| Total (loss)/gain is attributable to: | | | |
| Non-controlling interests | 126 | (67) | (288)% |
| Stockholders of the Company | $ (23,024) | $ (21,864) | 5% |

*Net Sales*

Net sales during the three months ended March 31, 2026 was $0.5 million, compared to $0.6 million for the same period in the prior year. The decrease of $0.1 million was primarily due to net sales in the three months ended March 31, 2025 included $0.3 million from the sale of CardioCel™ and VascuCel™ products to LeMaitre in connection with the Transition Services Agreement, which expired in January 2025, offset by an increase of net sales of tissue products to 4C increasing by $0.2 million in the three months ended March 31, 2026 compared to the prior year.

*Cost of Products Sold*

Cost of products sold during the three months ended March 31, 2026 was $0.1 million, a decrease of $0.1 million (45%), compared to $0.2 million for the same period in the prior year. The decrease in cost of products sold was primarily due to the inclusion in the three months ended March 31, 2025 of amounts associated with sales of CardioCel™ and VascuCel™ products under the Transition Services Agreement with LeMaitre. This decrease was partially offset by increased production volumes due to increases in demand for tissue products from 4C in 2026.

*R&D Expense*

R&D expenses during the three months ended March 31, 2026 were $17.5 million, an increase of $1.0 million (6%), compared to $16.5 million for the same period in the prior year. This increase was primarily due to an increase of $2.0 million in the three months ended March 31, 2026 related to the upscaling of manufacturing and quality capabilities, including process design and validation activities and the expansion of headcount, and an increase of $1.0 million related to activities linked to the PARADIGM Trial, including the scaling of our field based clinical team. These were partly offset by reduced DurAVR® product research costs of $2.0 million as we shifted our focus to clinical, regulatory and manufacturing activities ahead of the PARADIGM Trial.

*Selling, General and Administrative Expense*

Selling, general and administrative expenses during the three months ended March 31, 2026 were $6.9 million, an increase of $1.3 million (22%) compared to the same period in the prior year, which increase was primarily due to higher employee related costs, increased share based payment expenses, and additional consulting costs.

*Other non-operating income, net*

Other non-operating income, net during the three months ended March 31, 2026 was $1.7 million, an increase of $1.6 million compared to $0.1 million for the same period in the prior year, which increase was primarily due to interest earned on money-market fund deposits following the January 2026 capital raises.

*Net Foreign Exchange (Losses)/Gains*

Net foreign exchange losses during the three months ended March 31, 2026 were $0.1 million compared to $0.2 million of net foreign exchange losses for the same period in the prior year, which amounted to a decrease of $0.1 million (57%), primarily due to the change in foreign exchange rates on intercompany and cash balances. In the first quarter of 2026, the United States dollar depreciated by 2% relative to the Australian dollar (“AUD $”). In the first quarter of 2025, the United States dollar depreciated by 1% relative to the AUD $.

*Income tax (expense)/benefit*

Income tax expense during the three months ended March 31, 2026 was $0.5 million, compared to nil for the same period in the prior year, representing an increase of $0.5 million, primarily due to the recognition of withholding tax expense incurred during the period in connection with amounts payable by the Company’s Swiss subsidiary.

**Liquidity and Capital Resources**

***Capital Requirements and Sources of Liquidity***

We have experienced recurring operating losses and cash outflows from operating activities since inception. As of March 31, 2026 and December 31, 2025, we had an accumulated deficit of $393.6 million and $370.5 million, respectively.

In recent years, our operations have primarily been financed through the issuance of capital stock as well as through convertible notes, sales of regenerative tissue products and R&D tax incentives from the Australian government. We have also generated additional funding through interest earned on cash deposits. As of March 31, 2026 and December 31, 2025, we had cash and cash equivalents of $283.2 million and $12.6 million, respectively. As of March 31, 2026 and December 31, 2025, we had capital commitments of $3.0 million and $2.2 million, respectively relating to the lease of properties, and we did not have any other material capital expenditure commitments or contingent liabilities.

We anticipate that we will require additional funds in order to achieve our long-term goals including completing the R&D of our current products. We do not expect to generate significant revenue until we obtain regulatory approval to market and sell our products and sales of our products have commenced. We therefore expect to continue to incur substantial losses in the near future. However, based on our current operating plan, we believe that our existing cash and cash equivalents will be sufficient to meet our operating requirements for at least the next 12 months.

Our future capital requirements are difficult to forecast and will depend on many factors, including:

- the scope, results and timing of clinical trials;
- the costs of preparing and completing the PARADIGM Trial of our DurAVR® THV System;
- the costs and time required to obtain PMA from the FDA for our DurAVR® THV System; and
- the costs of establishing marketing, sales and distribution capabilities.

We may seek to raise any necessary capital through a combination of public or private equity offerings or debt financings. If we raise additional capital through debt financing, we may be subject to covenants limiting or restricting our ability to take specific actions, such as incurring additional debt, making capital expenditures or declaring dividends. If we decide to raise capital by issuing equity securities, the issuance of such equity securities may result in dilution to our existing stockholders. We cannot give any assurance that we will be successful in completing any financings or that any such equity or debt financing will be available to us if and when required or on satisfactory terms.

***Cash Flows***

The following table summarizes our primary sources and uses of cash for the periods presented (in thousands, except percentages):

| | Three Months Ended March 31, | | |
|---|---|---|---|
| | **2026** | **2025** | **% Change** |
| **Net Cash provided by (used in):** | | | |
| Operating activities | $ (28,680) | $ (21,489) | 33% |
| Investing activities | (182) | 1,110 | (116)% |
| Financing activities | 299,511 | (1,091) | (27,553)% |
| Effect of exchange rate movements on cash, cash equivalents and restricted cash | (15) | (33) | (55)% |
| **Net change in cash, cash equivalents and restricted cash** | $ 270,634 | $ (21,503) | (1,359)% |

*Operating Activities*

Net cash used in operating activities during the three months ended March 31, 2026 was $28.7 million, an increase of $7.2 million (33%), compared to $21.5 million in the same period in the prior year, primarily due to higher cash expenditures for R&D, including costs relating to the upscaling of manufacturing capabilities including process design and validation activities, preparatory and ongoing activities linked to the PARADIGM Trial, an increase in salaries and wages from a growth in headcount and the timing of payments to suppliers, including the settlement of liabilities outstanding at December 31, 2025.

*Investing Activities*

Net cash used in investing activities during the three months ended March 31, 2026 was $0.2 million, compared to net cash provided of $1.1 million in the same period in the prior year, a decrease of $1.3 million (116%). This decrease was primarily due to the receipt of $1.4 million of deferred proceeds from LeMaitre in the prior year, relating to the 2019 sale of distribution rights, for which there was no corresponding inflow in the current year. Additionally, cash outflows for purchases of plant and equipment during the three months ended March 31, 2026 were $0.1 million lower than in the same period in 2025.

*Financing Activities*

Net cash provided by financing activities during the three months ended March 31, 2026 was $299.5 million, compared to net cash used in financing activities of $1.1 million in the same period of the prior year, reflecting an increase of $300.6 million. During the three months ended March 31, 2026, we received proceeds of $308.3 million from the issuance of shares of Common Stock net of underwriting fees, which were partially offset by $8.2 million of share issuance transaction costs. In the three months ended March 31, 2025, proceeds of $0.6 million were received related to share issues and cash outflows of $1.2 million were incurred related to transaction costs from the 2024 public offering. Additionally, we repaid $0.6 million of outstanding insurance-related supplier financing debt during the period, representing an increase of $0.1 million compared to the same period in the prior year.

**Contractual Obligations and Commitments**

*Leases*

We lease laboratory and manufacturing facilities and offices. The leases typically include options to renew at which time the lease payments are subject to market adjustments and/or set price increases. Extension and termination options are included in a number of the leases to allow for flexibility in terms of corporate growth and managing the assets used in our operations. The leases expire between April 2026 and April 2030 and some include options to extend. At March 31, 2026, we had contractual commitments (on an undiscounted basis) for property leases of $3.5 million, which were recognized on a discounted basis at $3.0 million.

The locations and uses of our material properties are as follows:

| Location of Facility | Lease expiry date | Extension options |
|---|---|---|
| 11600-11628 96th Avenue North, Maple Grove, MN 55369 (1) | April 30, 2030 | 1 period of two years |
| 26 Harris Road, Malaga WA 6090, Australia | July 31, 2026 | 1 period of five years |

(1) Predominantly used for R&D, manufacturing of the DurAVR® THV and regulatory compliance teams.

All properties are leased. Our properties are well maintained, are in good operating condition, and are suitable for current requirements. We do not anticipate difficulty in renewing existing leases as they expire or in finding alternative facilities.

Subsequent to March 31, 2026, we entered into a long-term lease arrangement for additional office and warehouse space in Brooklyn Park, Minnesota to address the upcoming expiration of certain significant facility arrangements and to support ongoing and planned operational and manufacturing activities. This lease will result in increased future lease payment obligations.

*Commitments*

At March 31, 2026, we had commitments to purchase $0.1 million of plant and equipment.

**Off-Balance Sheet Arrangements**

We currently do not have, and did not have during the periods presented, any off-balance sheet arrangements.

**Critical Accounting Policies and Estimates**

We have used various accounting policies to prepare the condensed consolidated financial statements in accordance with generally accepted accounting principles in the United States ("U.S. GAAP").

The preparation of condensed consolidated financial statements in conformity with U.S. GAAP requires management to make judgments, estimates and assumptions that affect the reported amounts in the condensed consolidated financial statements and accompanying notes thereto. Management continually evaluates its judgments and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgments, estimates and assumptions on historical experience and on other various factors, including expectations regarding future events that management believes to be reasonable under the circumstances. Actual results could differ from those estimates due to risks and uncertainties and may be material.

Our significant accounting policies are discussed in Note 2, "Basis of Preparation and Summary of Significant Accounting Policies" in our Annual Report. There were no significant changes to these policies during the three months ended March 31, 2026.

**Consolidation of VIEs**

We consolidate a VIE when the reporting entity (a) has an economic interest in another legal entity (known as a "variable interest") that conveys more than insignificant exposure to potential losses of or benefits from the other legal entity; and (b) has power over the most significant economic activities of the legal entity. There is significant judgment over the analysis to determine whether an entity is a VIE, to determine whether we have a variable interest and to determine whether we are the primary beneficiary of a VIE.

We determined that v2vmedtech, inc. ("v2vmedtech") is a VIE and that we are the primary beneficiary of v2vmedtech. This determination is based on our having both power over the most significant activities of v2v, primarily through holding a majority of the positions on v2vmedtech's board of directors (although v2vmedtech's non-Anteris shareholder representative on the v2vmedtech board of directors presently maintains certain veto rights), controlling the appointment of the chief executive officer and chief financial officer roles, being the exclusive partner to develop v2vmedtech's products, and benefits through equity ownership.

**New Accounting Standards Not Yet Adopted**

See Note 2 to our condensed financial statements included in Item 1 of this Quarterly Report on Form 10-Q for more information.

**Emerging Growth Company and Smaller Reporting Company Status**

We are an "emerging growth company" (an "EGC"), as defined in the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"). The JOBS Act provides that an EGC can take advantage of an extended transition period for complying with new or revised accounting standards. This provision allows an EGC to delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We have elected to avail ourselves of this extended transition period for any new or revised accounting standards during the period in which we remain an EGC.

As a result, the information that we provide to our investors may be different than what you might receive from other public reporting companies. However, we may adopt certain new or revised accounting standards early.

We are also a "smaller reporting company" (a "SRC"), as defined in the Securities Exchange Act of 1934, as amended (the "Exchange Act"). We may continue to be a SRC even after we are no longer an EGC. We may take advantage of certain of the scaled disclosures available to SRCs. As a SRC, we will present only two years of audited annual financial statements, plus any required unaudited interim condensed financial statements, and related management's discussion and analysis of financial condition and results of operations.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

We are a SRC, as defined by Rule 12b-2 under the Exchange Act, and in Item 10(f)(1) of Regulation S-K, and are not required to provide the information under this item.

**Item 4. Controls and Procedures**

***Evaluation of Disclosure Controls and Procedures***

As of March 31, 2026, management, with the participation and supervision of our Chief Executive Officer and our Chief Financial Officer, have evaluated our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer have concluded that, solely as a result of the material weaknesses in our internal control over financial reporting described below, as of March 31, 2026, our disclosure controls and procedures were not effective to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

***Changes in Internal Control over Financial Reporting***

There are no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the three months ended March 31, 2026, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

***Previously Reported Material Weakness***

In connection with the preparation of our financial statements for the years ended December 31, 2024 and 2023, our management and our independent auditors identified material weaknesses in the design and operating effectiveness of our internal control over financial reporting, which remained unremediated as of December 31, 2025. The material weaknesses identified by our management and our independent auditors relate to (i) a lack of appropriately designed, implemented and documented procedures and controls, and (ii) deficiencies in the segregation of duties.

A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis.

Management has initiated and continues to implement a remediation plan to address the material weaknesses described above. During the year ended December 31, 2025 and through the quarter ended March 31, 2026, we implemented changes to our internal control over financial reporting, including enhancements to our control environment, improvements to process-level controls, and formal documentation of policies, processes, risks, and controls. Segregation of duties has been enhanced across the control environment and financial reporting systems through system automation, strengthened month-end controls, and enhanced review procedures. Management has commenced testing and is currently validating the operating effectiveness of these enhanced controls, and remediation actions are progressing as planned.

While we believe that these efforts will improve our internal control over financial reporting, the design and implementation of our remediation is ongoing and will require validation and testing of the design and operating effectiveness of our internal controls over a sustained period of financial reporting cycles. The actions that we are taking are subject to ongoing senior management review, as well as oversight by the Audit and Risk Committee. We will not be able to conclude whether the steps we are taking will fully remediate the material weaknesses in our internal control over financial reporting until we have completed our remediation efforts and subsequent evaluation of their effectiveness.

## PART II. Other Information

**Item 1. Legal Proceedings**

In the ordinary course of our operations, and from time-to-time, we are party to various claims and lawsuits.

We are not party to any material legal proceedings, and no such proceedings are, to management's knowledge, threatened against us.

**Item 1A. Risk Factors**

We face a number of risks that could materially and adversely affect our business, results of operations, cash flow, liquidity, or financial condition. Please refer to the factors discussed in Part I, Item 1A. "Risk Factors" in the Annual Report. Other than the supplemental risk factor provided below, there have been no material changes or additions to our risk factors discussed in such report that could materially impact our business, results of operations, cash flow, liquidity, or financial condition.

***Although we have received regulatory approvals to begin the PARADIGM Trial, there can be no guarantee that the study will be successful or that we will receive PMA from the FDA as a result.***

Although we have received approval from the FDA to proceed with the PARADIGM Trial under the IDE, the current approval from the FDA to proceed could be revoked, the study could be unsuccessful, and PMA from the FDA may not be obtained or could be revoked. Even if we obtain PMA for our DurAVR® THV System, the FDA or other regulatory authorities may require expensive or burdensome post-market testing or controls. Any delay in, or failure to receive or maintain, clearance or approval for our DurAVR® THV System could prevent us from generating revenue or achieving profitability. Additionally, the FDA and other regulatory authorities have broad enforcement powers. Regulatory enforcement or inquiries, or other increased scrutiny on us, could dissuade some physicians from using our products and adversely affect our reputation and the perceived safety and efficacy of our products.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

**(a) Recent Sales of Unregistered Securities**

None.

**(b) Use of Proceeds**

Not applicable.

**(c) Issuer Purchases of Equity Securities**

None.

**Item 3. Defaults Upon Senior Securities.**

Not applicable.

**Item 4. Mine Safety Disclosures.**

Not applicable.

**Item 5. Other Information**

**Trading Plans - Directors and Officers**

During the three months ended March 31, 2026, none of the Company's directors or officers adopted or terminated (i) any contract, instruction or written plan for the purchase or sale of Company securities that was intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) of the Exchange Act or (ii) any non-Rule 10b5-1 trading arrangement.

**Item 6. Exhibits**

The exhibits listed in the Exhibit Index below are filed, furnished, or incorporated by reference as part of this report on Form 10-Q.

**Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.**

Appointment of Ms. Susan Knight and Mr. Stephen Denaro to the Board of Directors

On May 11, 2026 (May 12, 2026 in Australia), the Board of Directors (the "Board") of Anteris Technologies Global Corp. (the "Company") appointed Ms. Susan Knight and Mr. Stephen Denaro to serve on the Board.

Ms. Knight will serve as a Class I Director, with a term expiring at the Company's 2028 annual meeting of stockholders and will serve on the Audit and Risk Committee of the Board. Mr. Denaro will serve as a Class II Director, with a term expiring at the Company's 2026 annual meeting of stockholders.

Ms. Knight most recently served as the Board Chair of Surmodics, Inc., a medical device provider, a position she held from 2015 until November 2025. She has served on corporate boards of directors since 2008 and has broad audit committee experience, including serving as committee chair at Surmodics, Inc., Greater Metropolitan Housing Corporation and Plato Learning. During her professional career, Ms. Knight was the Senior Vice President and Chief Financial Officer of MTS Systems Corporation from 2011 to 2014 and its Chief Financial Officer from 2001 to 2011. Prior to MTS Systems Corporation, Ms. Knight was the Vice President of Finance of the Home and Building Control Business of Honeywell, Inc. from 1994 to 2001. She also held various other management and executive financial positions during her 24-year career at Honeywell, Inc. Ms. Knight earned a BSBA in Accounting from Creighton University.

Mr. Denaro rejoins the Board with deep knowledge of the Company and its strategic priorities.

There are no understandings or arrangements between Ms. Knight and Mr. Denaro and any other person pursuant to which Ms. Knight or Mr. Denaro was selected to serve as a director of the Company. There are no relationships between Ms. Knight and Mr. Denaro and the Company or any of its subsidiaries that would require disclosure pursuant to Item 404(a) of Regulation S-K.

As non-employee directors, each of Ms. Knight and Mr. Denaro will receive annual cash retainers, payable in monthly installments and prorated for any portion of a month that they are not serving in such positions on the Board or its committees in accordance with the Company's Non-Employee Director Compensation Policy (the "Policy"). Ms Knight will receive (A) on the date of her appointment, an initial equity grant consisting of restricted stock units ("RSUs") with an aggregate grant date fair value of $250,000, which will vest in three substantially equal annual installments subject to her continued service on the Board through such dates and which grant will be subject to stockholder approval in accordance with the listing rules of the Australian Securities Exchange. Further, in accordance with the Policy, each Non-Employee Director (as defined in the Policy) who serves on the Board as of the date of any annual meeting and who continues to serve as a Non-Employee Director immediately following such annual meeting, is entitled to an annual equity grant consisting of RSUs with an aggregate grant date fair value of $125,000. Notwithstanding the foregoing, the number of RSUs subject to the annual RSU award will be prorated if a Non-Employee Director has served on the Board for fewer than six months prior to the next annual meeting. Mr. Denaro will be entitled to equity awards with an aggregate grant date fair value of $125,000 if he serves on the Board as of the date of an annual meeting and continues to serve as a Non-Employee Director immediately following such annual meeting. Mr. Denaro also serves as Company Secretary for a number of the Company's Australian subsidiary entities and is entitled to an annual fee of AUD $57,645 for these services, paid in monthly instalments.

Effective May 11, 2026 (May 12, 2026 in Australia), the Company entered into indemnification agreements with each of Ms. Knight and Mr. Denaro in the form previously filed as Exhibit 10.2 to the Company's Form S-1 filed with the Securities and Exchange Commission on November 22, 2024. The indemnification agreement requires the Company to indemnify each of Ms. Knight and Mr. Denaro to the fullest extent permitted under Delaware law against liability that may arise by reason of their service to the Company, and to advance expenses incurred as a result of any proceedings against them as to which they could be indemnified, among other things.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
